2015 CALL FOR PAPERS

CANADIAN CAMP RESEARCH AWARD OF EXCELLENCE

THE PURPOSE OF THE AWARD

The annual Award honours and celebrates excellence in research and writing that makes a significant contribution to the body of academic literature relevant to the organized camping movement in Canada.

It encourages graduate students, faculty and independent scholars to examine issues and/or practicalities of camp phenomena from a social, educational, economic, technological, political, natural and/or organizational perspective from any academic discipline or professional field.

It augments the body of research literature electronically accessible world-wide on the CCA Research website, and as more durable hard copy in the unique Camping Collections at the Trent University Archives for long term access by future researchers.

THE AWARD CRITERIA

At their discretion, the judges may award the “Canadian Camp Research Award of Excellence”, and may also award one or more “Canadian Camp Research Award(s) of Merit”.

The judging criteria are the value to camping research in Canada, the depth and breadth of research, the strength of analysis and synthesis, and the quality of scholarly communication.

The Canadian Camp Research Award Committee works at arm’s length from the CCA Board, and the judges’ decisions are final.

If possible, the winner(s) will be publicly honoured and receive their award(s) at a provincial camping association event.
